DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 35 is finally rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The subject matter, "an auxiliary board and in which the markers are formed on the auxiliary board", as now amended, is not supported by the original specification and now, therefore constitutes New Matter..

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 22 and 35 are finally rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 22, there is lack of antecedent basis for the limitation "the back plate".

Art Unit: 3725

Regarding claim 35, it is not clear what is encompassed by the phrase "auxiliary board".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 24-27, 31-33 and 38-40 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Waite (US Patent 3,057,383).

The device of Waite meets the elements of the claimed limitations including a bottom plate (17), a rear plate (11), an alignment member (34 and 54), a first and second adjustment (col. 6, lines 4-38), a front plate (10; fig. 10) and a post (col. 7, par. 4).

Claims 21-23, 28-30 and 34-37 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Grisley (US Patent 5711356).

The device of Grisley meets the elements of the claimed limitations including a bottom plate (20), a rear plate (4), at least one handle (14), an alignment bar (30), a clamp (col. 4, par. 5 – col. 5, line 10), at least one marker (68) and an auxiliary board (fig. 6).

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
